

Links

Can be used to create a list of links to other websites or pages on sites.

View Links Tab

Shows a list of all the links that have been created

Creating a Link

1. Click on New.
2. Enter the name of the link; this is what will display on the site.
3. Select whether or not it's hidden.
4. Enter the full URL.
5. Highlight the category.
6. Save.

Creating a Category

1. Click on New.
2. Enter the name.
3. Enter the description.
4. Save.
5. You can either create one generic category or you can break it down, but there has to be at least one category created.
