

Countdown

Adds a countdown to the site that will countdown to a specific time or can manually count up to a number.

View Countdowns Tab

Creating a Countdown

1. Click on New.
2. Enter the name; this is only how it is referenced in the ISM.
3. Set the Activates On/Ends On time if counting down to a time. Leave default if counting to a number.
4. Select the type (Countdown to Number/Countdown to Date/Time).
5. Type in the number, if applicable.
6. Enter the Countdown text; this will display on the front end (Days Until Opening Day, for example.)

Editing an existing Countdown

1. Simply select the Edit icon on the right.

The countdown is usually created by the customer service representative and updated by you. If you accidentally delete the countdown you need to open a task or contact customer service to link the countdown to the site.
